CRITICISES COLOMBIA

SENATE ISTHMIAN CANAL COM-
MITTEE MAKES SENSATION-
AL CHARGES.

SHARP PRACTICE ALLEGED

Said That Colombia Is Anxious to Get Rid of the Panama Canal Company in Order to Seize Its Plant, Lands, Houses, Machine Shops, Hospital and Warehouses at Colon, Along With the Panama Railroad.

Washington, May 27.—Senator Morgan, from the committee on isthmian canals, has submitted to the senate the adverse report of that committee on Senator Hoar's bill placing the selection of a route for an isthmian canal in the hands of the president. The committee opposes the bill on the ground that it makes no provision for further exploration of routes and leaves the president to make selection on the state of facts already ascertained. It is contended that "however safely the country may rely on the wisdom and just discretion of the executive the policy is not wise nor safe as a rule of government."

The report discusses at length the protocols with Colombia and Nicaragua and Costa Rica, and it is stated incidentally that Former Colombian Minister Silva was invited to appear before the committee, but declined to do so.

Of the agreements with Costa Rica and Nicaragua it is said that "they are definite and complete as to the character and scope of the rights they have agreed to concede to the United States," and it is argued that if they are ratified nothing will be left to do but to complete the details of the arrangements necessary to carry the agreements into effect.

Colombia, on the other hand, is charged with playing for delay. It is charged that Colombia does not by her protocol propose to sell the Panama canal and railroad property free of all existing claims, concessions and incumbrances, but

Leaves Us to Work Out a Title

with the Panama company. It is then charged that the "insincerity of the attitude of Colombia with reference to the completion of the Panama canal is shown, almost without disguise, in the character of the demands made by that government as to the condition of transfer of the canal and stock in the Panama railroad to the United States." The report adds:

"Colombia is anxious to get rid of the Panama Canal company without giving offense to France, so that she can seize and possess all the plant of the canal company, all the lands and houses it owns at Panama, including the great hospital, the machine shops and wharves at Colon, all the vast machinery used by the canal company, the hospitals and the other houses, the palaces built for De Lesseps and his son, and become owner of it all, along with the Panama railroad which reverts to her in 1906."

"If this convention should be adopted, not only would delay attend the opening of the canal, but the United States would assume obligations to the world that it would be impossible to keep, and relations with Colombia that will deprive the canal of all value to the United States and will make it a cause of irritation that must involve the most serious consequences."

DENIES ALL ALLEGATIONS.

Captain McDonald Before the Senate Philippine Committee.

Washington, May 27.—Captain McDonald, formerly of the Twenty-sixth volunteer infantry, one of the officers accused in Corporal O'Brien's testimony, was before the Philippine committee of the senate during the day. He denied all the allegations made by O'Brien and said O'Brien was on duty elsewhere at the time he claimed to have been present. McDonald said that the American officers had not violated Spanish women nor other women to his knowledge. He also denied the statement made by O'Brien that he (McDonald) and a number of other officers misbehaved themselves at a native dance. He showed that at the time alleged Major Cook, one of the officers named, and himself were on duty elsewhere.

The shooting of bearers of arms and of women and children by his command was another story by O'Brien that is denied. Captain McDonald said O'Brien was a troublesome soldier from the first.

Doubtful Praise.

Miss Uppersee—The audience went wild over my singing. I had to repeat my song no less than four times.

Mrs. Oldtimer—Why, that's just the time they used to make over me at school. I've known the time when the teacher made me say my lesson over half a dozen times.—Boston Transcript.

He Had Them.

Dr. Jones—I say, waiter, I believe you've got palpitation of the heart, haven't you?

Waiter—Yes, sir, and they're uncommon nice today, sir. Will you try some, sir?—Chicago News.

LORD PAUNCEFOTE'S FUNERAL.

American Soldiers and Sailors to Assist in the Obsequies.

Washington, May 27.—It is evident from the preparations so far made that the funeral of the late Lord Pouncefote will be conducted with great dignity and will be made a memorable occasion. All of the available military and naval forces in Washington and vicinity will take part in the procession. The services at St. John's church will be conducted by Coadjutor Bishop Mackay-Smith, though Bishop Satterlee will attend. Owing to the small size of the church it will be necessary to restrict the admissions, which will be by card alone. Officially the attendance will be confined to the president and his cabinet, the diplomatic body, the supreme court, the members of the senate committee on foreign affairs, Admiral Dewey and General Miles and their staffs.

It is pretty well settled that the remains of the late Lord Pouncefote will be carried to England on an American warship and either the Olympia, flagship of the North Atlantic squadron and Dewey's flagship at Manila, or the Brooklyn, Admiral Schley's flagship at Santiago bay, which is just returning from Cuba, will be selected for this duty. The date of departure will depend upon the convenience of the Pouncefote family, but it is certain that the casket cannot be landed on English soil before the conclusion of the coronation ceremonies.

OFFER GRATEFULLY ACCEPTED.

American Warship Will Convey Lord Pouncefote's Body to England.

London, May 27.—The British government has gratefully accepted the offer by the United States of a warship to bring home the body of Lord Pouncefote, late British ambassador to Washington.

Deep appreciation was expressed at the foreign office at this and other signs of American sympathy.

HANNA FOR PRESIDENT.

Ohio Republican Convention May Endorse Him for the Nomination.

Cleveland, May 27.—With the exception of Senator Foraker, the Ohio Republican leaders are all here for the state convention. Governor Nash, the temporary chairman, General Grosvenor, the prospective chairman, Chairman Dick of the state executive committee and other congressmen and leaders spent the evening at the residence of Senator Hanna considering disputed planks in the platform. It is proposed to oppose all trusts that fix prices against consumers, but not to oppose such combinations as save expenses in production. Cuban reciprocity is the most disputed point before the platform makers.

Next year members of the legislature that choose the successor to Hanna are to be elected with a full state ticket and one of the purposes of the leaders this year is to secure control of the party machinery for the important state contest of 1903 and for the presidential election of 1904. There is some comment on Hanna for senator to succeed himself next year and for president the following year.

VIEW NIAGARA FALLS.

Rochambeau Mission Enjoys a Very Pleasant Day.

Buffalo, N. Y., May 27.—The members of the French mission who participated in the ceremonies incident to the unveiling of the statue of Count de Rochambeau at Washington, accompanied by Ambassador Cambon, Mme. Cambon, members of the staff of the French embassy and the president's commission, spent a pleasant day at Niagara Falls and again turned toward the East, leaving for West Point at 5 o'clock p. m. over the West Shore railroad.

The party had two hours' drive through the park on the American side and across the bridge on the Canadian side. At Table Rock the members of the party left their carriages and walked about for half an hour.

SEVENTY-ONE BODIES FOUND.

From Forty to Eighty More Still Remain in the Fernie (B. C.) Mine.

Fernie, B. C., May 27.—With all experienced miners available for rescue work intelligently utilized in 4-hour shifts, the clearing of the ill fated workings at Coal Creek mine advanced during the day and No. 2 slope was penetrated to its farthest extremity and all remaining bodies removed. No. 2 slope and workings are being quickly cleared, and it is expected that by morning the bodies will have been removed. Seventy-one have now been recovered, and estimates of those remaining vary from 40 to 80. There is great diversity of opinion as to the probable cause of the explosion and formal investigation will be necessary to decide.

TO AMEND THE CODE.

House Considering District of Columbia Business.

Washington, May 27.—The house of representatives devoted the day to business connected with the District of Columbia and took a recess until 11 a. m., in order to complete the bill amending the District code.

An agreement was reached that when the house adjourned on next Thursday it be until the following Monday in order to allow the members to participate in the Decoration day exercises.

BOTH SIDES ENERGETIC

OPERATORS AND MINERS ARE
STRAINING EVERY NERVE
TO WIN STRIKE.

RESULT STILL IN DOUBT

Not Generally Known Yet to What

Extent the Engineers and Pump

Runners Will Quit Work on Monday

Next—Firemen, However, Will Go

Out to a Man—Civic Federation May

Bring About a Settlement.

Wilkesbarre, Pa., May 27.—It is still a matter of conjecture whether the mines in the anthracite region will be completely shut down next Monday when the order issued by the executive boards of the United Mine Workers, governing the hours of labor and wages to be paid engineers, firemen and pump runners goes into effect. The operators claim they will have all the help necessary to keep the pumps and engines in running order.

The United Mine Workers and the officers of the Stationary Firemen's association, on the other hand, claim that unless the coal companies grant the demands made upon them the great bulk of the engineers, firemen and pumpmen will quit work. There seems to be no question but that both sides are straining every nerve to make the best showing possible. The operators are bringing all the influence they can to hold the men now at work, while the striking miners are also doing missionary work. Most of the engineers do not like the predicament they are placed in. If they quit work they will displease the company officials and may never be reinstated, while if they remain at their posts and the miners should win their strike, they would probably find that things would not be so pleasant for them at the collieries in the future. In order to reach those who are wavering, a call for a mass meeting of all engineers, pumpmen and firemen in the Wyoming region in this city next Friday evening has been issued.

While the position that will be taken by a great many of the engineers and pumpmen is not known, it is known for a certainty where the firemen stand. They will strike almost to a man and the operators will be compelled to secure green hands to take their places. The stationary firemen have a membership of 1,000 at Mayfield, Shamokin, Mount Carmel, Girardville, Pittston, Scranton and Wilkesbarre. This does not constitute all the membership. Within a year past a great many firemen who formerly belonged to the Stationary Firemen's association have joined the United Mine Workers. The engineers, firemen and pumpmen who were discharged at the Boston colliery of the Delaware and Hudson company because they refused to do the work formerly done by the strikers have been reinstated.

A mysterious fire occurred at the old Empire breaker. The breaker has been abandoned for some time, but there was a watchman on duty. The striking miners say the fire was incendiary and that some enemy of the strikers is guilty of applying the match.

CONFERENCE IN CHICAGO.

Meeting Held Which May Result in Strike Settlement.

Chicago, May 27.—A conference that promises to change the aspect of the anthracite strike situation was held in this city between several members of the National Civic Federation and union interests. President John Mitchell of the United Mine Workers of

America, who has been in Chicago several days relative to the situation in the bituminous coal fields, met Frank P. Sargeant and Franklin MacVeagh of the Federation and Samuel Keef of the Longshoremen's union and plans for further arbitral endeavors on the part of the federation were discussed.

The meeting was executive and definite statements as to the details of the conference were not announced. It is understood, however, that the plan agreed upon contemplates calling another conference of the mine operators and the whole committee of the National Civic Federation at New York with a view to arbitrating the strike question. It is said that the plan will be sent to Senator Hanna for approval before a recommendation for further arbitration is made. If the plan is carried into effect it is expected that some definite announcement of it will be made within a week or 10 days.

President Mitchell declined to go into details of the meeting, but said it was not called by him and that his presence in the city was not for the purpose of bringing about a settlement of the anthracite difficulties. He said further that the mine workers were showing no indication of weakening in their position.

STOCK YARDS STRIKE.

Chicago Butchers and Restaurants May Be Severely Crippled.

Chicago, May 27.—As a result of the teamsters' strike at the stock yards, business in packing town may be paralyzed and that among wholesale butchers and down town restaurants may be seriously crippled.

Unless concessions are made or an agreement reached the Union Stock Yards and Transit company is likely to find itself in the toils of the strike. The strikers will demand that the company refuse to transport to the up town districts meats heretofore hauled by the teamsters. If refused a general strike of railroad men will be ordered. This will call out all engineers, firemen, brakemen and other union labor operatives of the company. If the strike shall come out not a car can be moved either in or out of the yards.

Minnesota Boy an Artillery Officer.

Washington, May 27.—The president has nominated Richard L. McKinney of Minnesota and Guy B. Hanna of Iowa to be second lieutenants of artillery.

FILIPINO INDEPENDENCE.

Senator Patterson Maintains He Has Consistently Advocated It.

Washington, May 27.—Mr. Patterson of Colorado, one of the minority members of the Philippine committee of the senate, occupied the floor most of the day in the discussion of the Philippine question. Mr. Patterson quoted from the utterances of his newspaper, the Denver News, to show that it consistently had advocated the independence of the Filipinos since December, 1898. He said the editorials quoted by Mr. Foraker some few days ago had been written prior to that time. He discussed the whole Philippine question and several lively colloquies occurred during the speech. Mr. Foraker and Mr. Hoar had a brief debate over President McKinley's proclamation to the Filipinos.

Sixty-two private pension bills were passed.

For Palma's Current Expenses.

Havana, May 27.—Both the senate and house have passed a bill granting President Palma \$200,000 for current expenses in connection with insular affairs. Discussion of the question of granting amnesty to the Americans now in prison or awaiting trial in Cuba was postponed until the following day.

Aeronaut Falls in a Lake

Denver, Colo., May 27.—Ben Bowen, an aeronaut, made an ascension and parachute drop at Manhattan beach, a suburban summer resort, and, after falling in the middle of the lake was drowned before a boat could reach him. He was 18 years of age.

SENATE ISTHMIAN CANAL COMMITTEE MAKES SENSATIONAL CHARGES.

SHARP PRACTICE ALLEGED

Said That Colombia Is Anxious to Get Rid of the Panama Canal Company in Order to Seize Its Plant, Lands, Houses, Machine Shops, Hospital and Warehouses at Colon, Along With the Panama Railroad.

Washington, May 27.—Senator Morgan, from the committee on isthmian canals, has submitted to the senate the adverse report of that committee on Senator Hoar's bill placing the selection of a route for an isthmian canal in the hands of the president. The committee opposes the bill on the ground that it makes no provision for further exploration of routes and leaves the president to make selection on the state of facts already ascertained. It is contended that "however safely the country may rely on the wisdom and just discretion of the executive the policy is not wise nor safe as a rule of government."

The report discusses at length the protocols with Colombia and Nicaragua and Costa Rica, and it is stated incidentally that Former Colombian Minister Silva was invited to appear before the committee, but declined to do so.

Of the agreements with Costa Rica and Nicaragua it is said that "they are definite and complete as to the character and scope of the rights they have agreed to concede to the United States," and it is argued that if they are ratified nothing will be left to do but to complete the details of the arrangements necessary to carry the agreements into effect.

Colombia, on the other hand, is charged with playing for delay. It is charged that Colombia does not by her protocol propose to sell the Panama canal and railroad property free of all existing claims, concessions and incumbrances, but

Leaves Us to Work Out a Title with the Panama company. It is then charged that the "insincerity of the attitude of Colombia with reference to the completion of the Panama canal is shown, almost without disguise, in the character of the demands made by that government as to the condition of transfer of the canal and stock in the Panama railroad to the United States." The report adds:

"Colombia is anxious to get rid of the Panama Canal company without giving offense to France, so that she can seize and possess all the plant of the canal company, all the lands and houses it owns at Panama, including the great hospital, the machine shops and wharves at Colon, all the vast machinery used by the canal company, the hospitals and the other houses, the palaces built for De Lesseps and his son, and become owner of it all, along with the Panama railroad, which reverts to her in 1906."

"If this convention should be adopted, not only would delay attend the opening of the canal, but the United States would assume obligations to the world that it would be impossible to keep, and relations with Colombia that will deprive the canal of all value to the United States and will make it a cause of irritation that must involve the most serious consequences."

The stationary firemen have a membership of 1,000 at Mayfield, Shamokin, Mount Carmel, Girardville, Pittston, Scranton and Wilkesbarre. This does not constitute all the membership. Within a year past a great many firemen who formerly belonged to the Stationary Firemen's association have joined the United Mine Workers. The engineers, firemen and pumpmen who were discharged at the Boston colliery of the Delaware and Hudson company because they refused to do the work formerly done by the strikers have been reinstated.

A mysterious fire occurred at the old Empire breaker. The breaker has been abandoned for some time, but there was a watchman on duty. The striking miners say the fire was incendiary and that some enemy of the strikers is guilty of applying the match.

CONFERENCE IN CHICAGO.

Meeting Held Which May Result in Strike Settlement.

Chicago, May 27.—A conference that promises to change the aspect of the anthracite strike situation was held in this city between several members of the National Civic Federation and union interests. President John Mitchell of the United Mine Workers of

America, who has been in Chicago several days relative to the situation in the bituminous coal fields, met Frank P. Sargeant and Franklin MacVeagh of the Federation and Samuel Keef of the Longshoremen's union and plans for further arbitrate endeavors on the part of the federation were discussed.

The meeting was executive and definite statements as to the details of the conference were not announced. It is understood, however, that the plan agreed upon contemplates calling another conference of the mine operators and the whole committee of the National Civic Federation at New York with a view to arbitrating the strike question. It is said that the plan will be sent to Senator Hanna for approval before a recommendation for further arbitration is made. If the plan is carried into effect it is expected that some definite announcement of it will be made within a week or 10 days.

President Mitchell declined to go into details of the meeting, but said it was not called by him and that his presence in the city was not for the purpose of bringing about a settlement of the anthracite difficulties. He said further that the mine workers were showing no indication of weakening in their position.

STOCK YARDS STRIKE.

Chicago Butchers and Restaurants May Be Severely Crippled.

Chicago, May 27.—As a result of the teamsters' strike at the stock yards, business in packing town may be paralyzed and that among wholesale butchers and down town restaurants may be seriously crippled.

Unless concessions are made or an agreement reached the Union Stock Yards and Transit company is likely to find itself in the toils of the strike. The strikers will demand that the company refuse to transport to the up town districts meats heretofore hauled by the teamsters. If refused a general strike of railroad men will be ordered. This will call out all engineers, firemen, brakemen and other union labor operatives of the company. If the strike shall come not a car can be moved either in or out of the yards.

Minnesota Boy an Artillery Officer.

Washington, May 27.—The president has nominated Richard L. McKinney of Minnesota and Guy B. Hanna of Iowa to be second lieutenants of artillery.

FILIPINO INDEPENDENCE.

Senator Patterson Maintains He Has Consistently Advocated It.

Washington, May 27.—Mr. Patterson of Colorado, one of the minority members of the Philippine committee of the senate, occupied the floor most of the day in the discussion of the Philippine question. Mr. Patterson quoted from the utterances of his newspaper, the Denver News, to show that it consistently had advocated the independence of the Filipinos since December, 1898. He said the editorials quoted by Mr. Foraker some few days ago had been written prior to that time. He discussed the whole Philippine question and several lively colloquies occurred during the speech. Mr. Foraker and Mr. Hoar had a brief debate over President McKinley's proclamation to the Filipinos.

Sixty-two private pension bills were passed.

For Palma's Current Expenses.

Havana, May 27.—Both the senate and house have passed a bill granting President Palma \$200,000 for current expenses in connection with insular affairs. Discussion of the question of granting amnesty to the Americans now in prison or awaiting trial in Cuba was postponed until the following day.

Aeronaut Falls in a Lake.

Denver, Colo., May 27.—Ben Bowen, an aeronaut, made an ascension and parachute drop at Manhattan beach, a suburban summer resort, and, after falling in the middle of the lake was drowned before a boat could reach him. He was 18 years of age.

CONGREGATIONALISTS MEET.

Annual Meeting of the Duluth Conference Being Held in This City.--Roll Call and Organization.

This afternoon at 2 o'clock the annual meeting of the Duluth conference of the Congregational church, convened in the Peoples church, East Brainerd. There is a fairly good attendance and it is expected that the meetings will be quite interesting. At 3 o'clock devotional exercises were held, lead by Rev. James Earl, of Duluth, after which the business of the conference was taken up. One of the principle features of this afternoon's meeting was the address by Rev. R. P. Herrick, state superintendent of Sunday schools, on "Sunday School Success."

This evening at 7:45 there will be devotional exercises lead by Rev. George Michaels, of Walker. The conference sermon will be preached this evening at 8:15 by Rev. Alexander Milne, of Duluth, on the subject, "The Authority of Christ."

ONE OF NATURE'S LAWS.

Action and Reaction That Produce a Fit of the Blues.

Probably in two cases out of three the blues are caused by one's physical state. If a man has overworked or has been under any unusual strain or excitement or has worried a great deal or has been for a while in a state of joy and elation—all of which require an expenditure of energy—he is very likely to have the blues and to be in low spirits by way of reaction.

The body is a machine which can do a certain amount of work and no more. If it does a great deal today, it must do less tomorrow and thereby make up for today's extravagance. If a man takes one glass of whiskey, the slight stimulus that he feels will be followed, as night follows day, by an exactly equivalent sinking of the spirits. If he has been thoroughly and gayly drunk, his recovery will be attended by corresponding melancholia and misery.

When a man has the blues, he ought to consider that he is merely an exponent of one of nature's laws and that he has no right to harass others with complaints. Some men are not pleased unless they communicate their unpleasant moods to all about them. They become sulky and cross with their wives and children, and they throw a gloom over their household. Such conduct is very selfish.

A man in the blues ought to take some pills and a good long walk alone or with some companion of steadfast cheerfulness. Lucky it is for him if he has a wife who will not be downcast and who can restore him to cheerfulness without spoiling him.—San Francisco Bulletin.

Funny Signs of the Times.

Some persons find as much fun in reading signboards as others do in reading the comic papers. Here are a few oddities reported by observing travelers, the first of which evidently was displayed in front of a butcher's shop:

"I kill myself every Tuesday and Friday."
"Take notice when this board is out of site the river is dangerous."
"Widow with large family wants washing by the week."
"Ladies and gents sold and healed."
"This is the old shop just come from above."
"A large stock of ladies' hose, pure cashmere, to be cleared 25 cents the pair. They won't last long at this price."
"Abominable belts made to order."
"Closed for the day owing to funeral of proprietor's wife and who will carry on as usual tomorrow morning."—New York Press.

Saved in Installments.

A couple of Scottish ferrymen rowing a somewhat dandified Englishman out to a steamer at one of the Clyde watering places saw to their consternation the man tumble over the gunwale of the boat into the water.

The foremost ferryman dropped his oar and made a grab at the man as he rose to the surface, catching him by the wig, which came away in his hand.

Throwing this into the boat impatiently, he made a second grab, catching the collar of his shirt, when the collar and front came away in his hands.

Casting these away from him in great disgust, he cried, "Man, Donald, come here quick and help's to save as muckle o' this man as ye can, for he's comin' awa' in bits!"

Chinese Women Menders.

In nearly every city in China women are to be found sitting in the streets busily plying their trade as menders of clothing. Their knowledge of needlecraft is generally limited to what is called "running," and therefore they are not much patronized by English or American travelers. They are, however, never without patrons among Chinese tradesmen, who are often natives of other districts and have no one else in the city to mend a rent for them, their wives and children being left at home. For this class of customers the skill of the itinerant sewing woman is sufficient, and to them it is a great convenience to have the necessary repairs rapidly made while they stand by and wait.

A brand new spanking line of straw hats just opened.
LINNEMAN & CARLSON.

ON THE DIAMOND.

Work is being pushed on the new base ball park in this city and it will be ready for the game Friday afternoon. A. A. White has something like thirty men at work there now.

It is proposed to take the ball team to Brainerd June 8 and to run an excursion of 200 people. Manager Wenzel is working on the project.—St. Cloud Journal-Press.

Tasche, the young twirler of this city, pitched a game for Staples last Sunday against Wadena and won out. They say that Tasche is a comer and that he will be able to play in good fast company next year.

The high school baseball team defeated the team of the Brainerd high school by a score of 9 to 0 at the Driving park on Saturday afternoon.

The game was an interesting one, and for the first few innings very exciting, though the fielding of both teams was ragged at times. Not a man reached the rubber during the first four innings. Twice Brainerd got three men on bases by the help of two singles and numerous errors by the Duluth fielders, but before a score could be landed Cummings would strike out enough men to retire the side or the fielders would take a brace and stop the running.

Tasche, the Brainerd pitcher who graced the slab for the first five innings, is a little wonder. They say that he is only 16 years old, but he plays with the speed and judgment of a veteran. For the five innings that he was in the game he held down the Duluth men to one hit—and that a one-bagger. In the fifth, however, the already bad support of the men behind him gave way. They couldn't field anything. Two little hits were made off of him in the excitement and these, coupled with countless errors by the out and infielders, gave Duluth six runs and the game.

Disgusted by the support given him Tasche quit the game and his place was taken by Boyle. The new man gave several free passes to first and allowed a hit, so Duluth got two more scores in the sixth.

Cummings meanwhile warmed up to his usual form and had the Brainerd men fanning in quick succession. They were unable to score through the entire game, though Boyle was just barely caught on the attempted steal home from third.

Duluth added one in the seventh, making the score 9 to 0, but was unable to score in the eighth.

Score by innings:
Duluth.....0 0 0 0 6 2 1 0 x—9
Brainerd...0 0 0 0 0 0 0 0—0

The Brainerd men played a gentlemanly game. They brought an umpire along with them, who displayed no favoritism; and Dave Paddock, who umpired for the Duluth boys, won their admiration by his excellent judgment.

The Duluth boys go to Brainerd next Saturday. They hope to win again though, perhaps, the Brainerd men will play a better game on their own grounds.—Duluth Herald.

Everything is now assured that the new base ball park will be ready by Friday, Decoration day, and this

DEFENDANT WANTS THE WRIT VACATED

Attorney Albright Moves That Writ of Attachment in Stamp Case be Set Aside.

A HEARING THIS AFTERNOON.

Hearing was Continued so That Defense Can File an Amendment to the Writ.

The case of S. R. Adair vs. the National Stamp Co., of Brainerd, came up this afternoon before Judge Blewitt, having been continued the third time, on a motion made by the defendant's attorney, C. A. Albright, to vacate the writ of attachment. It will be remembered that some of the merchants of the city who had had dealings with the stamp concern got together and under the supposition that they were about to leave town had a writ of attachment served on the agent and held some goods. They claim that the company has not fulfilled its part of the contract, and want them to redeem the stamps that are now out.

The motion to vacate the writ was made on the ground that the defendant company is not a foreign corporation, as alleged, and on the further ground that there is a defect in the writ, the bond and the affidavit. In several instances in these papers the name of the concern in given differently.

This afternoon the case came up before Judge Blewitt and after arguing the motion at length Attorney Albright asked for further time to amend the same and he was given two days.

Afternoon a telephone message was received from Manager Zuver of Aitkin that the team of that city would be here to try conclusions with the locals. It will be the first game on the new grounds and the first game in Brainerd this year and there will doubtless be a very large attendance. The game played with Aitkin last Sunday was one of the prettiest exhibitions of the national game that has ever been seen in northern Minnesota. The game will be called Friday afternoon at 3 o'clock. The grand stand will be completed and the diamond is good and fast and a fine exhibition may be expected.

Fuel to Run Railroads.

The item of fuel is one of the largest in the expense of operating a railroad.

The coal consumed in running the Pioneer Limited trains of the Milwaukee between St. Paul, Minneapolis and Chicago amounts in one year to a very large sum.

These trains are so substantial and massive that the comfort and safety of the traveler is added to materially. "The Pioneer Limited" is pronounced the famous train of the world. Its private compartment sleepers, open sleepers, buffet library smoking and dining cars are the finest ever produced.

We can interest you in your summer shirts and underwear, if you will only look. New goods every week.

A DECISION IS HANDED DOWN

By Judge McClenahan in Case of
the Town of St. Mathias
Against County.

BILLS ARE MOSTLY ALLOWED.

Those who Can Afford it Must
Pay the Expense in Cases
of Epidemic.

Judge McClenahan has handed down his decision in the case of the Town of St. Mathias vs. Crow Wing county and it will be read with considerable interest.

It seems that the township officers incurred some expense in taking care of several cases of smallpox about a year ago now, and a statement of the expense was made out and handed to the county auditor. At the next meeting of the county commissioners it was decided not to allow the bill. This was one of the first of the kind that was ever sent in to the county and it has been made a sort of test case all the way through, and there is now something like \$4000 against the county which has been contingent on the decision of the judge in this case.

Under the law the board of township officers comprises the board of health and in cases of epidemic they are supposed to serve in the capacities of the regular health officers. These men naturally in some instances spend considerable time and labor in looking after the cases and in this particular case a bill was sent in for the time put in by a member of the board.

Judge McClenahan decided that the town was entitled to \$118. The town asked judgment in the sum of \$160.89. In reducing this amount the court has decided another important phase of this question. He held that under the law a person who is able to pay the necessary bill of expense is to be charged up with the cost; that the law wherein the county becomes liable is only applicable to persons not able to pay costs of treatment etc. All the other cases where town officers have sent in bills will therefore be settled on this basis.

IT WILL COME BACK.

Some Brainerd Residents Have Learned to Keep it Away

Your back may not ache very long.

But the ache will return shortly, Comes oftener-stays longer, Unless the kidneys are relieved.

Doan's Kidney Pills cure all kidney ills.

Brainerd people endorse them.

Mrs. S. Brain, of 125 South 9th street, says: Doan's Kidney Pills cannot be spoken of in too high terms. I suffered greatly from my back, the symptoms showing unmistakably that the kidneys were at fault. The secretions from those organs were scanty and caused some pain; the aching in my back was constant and exceeding distressing. When my husband brought me Doan's Kidney Pills I was much in need of relief. I used them and in a comparatively short time the pain had disappeared and the improvement in my constitution was general. The kidneys were quickly restored to health and performed their functions naturally.

Sold for 50 cents a box, at the McFadden Drug Co., H. P. Dunn & Co., and all druggists. Foster-Milburn Co., Buffalo, N. Y., sole agents for the U. S.

Remember the name, Doan's, and take no substitute.

HUNTING UP VIOLATORS.

Game Warden Fullerton and Deputy Saunders Are Up North Looking for These Men.

Executive Agent Sam F. Fullerton, of the state game and fish commission, is up north accompanied by Deputy Saunders, of this city. It having been reported to Mr. Fullerton that the laws were being violated in the vicinity of Cass Lake, he decided to make a personal investigation. If he is able to verify the reports he will prosecute the violators with his accustomed vigor.

Woman Fills the Office.

Mrs. G. Fred Stevens, of Duluth, is to be the first woman in the United States to hold the office of surveyor general of logs and lumber, so says the St. Paul Dispatch.

Mrs. Stevens is the widow of the late surveyor general of the Duluth district, and Gov. Van Sant said today that he would appoint her to fill the unexpired term of her late husband. She will hold the office until January next.

In announcing his intention to make the appointment, Gov. Van Sant said:

"The people of Duluth seem to think the proper thing would be to allow Mrs. Stevens to enjoy the emoluments of the office for the remainder of the term, and I do not think, under the circumstances that even those who are to be candidates for the place can or will seriously object to that arrangement."

"As to the duties of the office, Mrs. Stevens can discharge them properly, and no interests will suffer. The men in the department are all placed, and the work will go on as it has before."

Bring in Your Bicycles.

EXCITEMENT OVER A LAND DECISION.

Brainerd Men are First on the
Ground to File on Indian
Lands.

MANY FLOCK TO LAND OFFICES.

Ruling that Certain Sections Belong to the Government
Causes Great Rush.

As a result of the decision of the supreme court that sections 16 and 36 in the various townships of the Red Lake reservation are not owned by the state but by the government there has been considerable excitement at Cass Lake and all through the territory between Duluth and Crookston. Regarding the matter the Duluth News-Tribune has the following to say:

"It has produced a genuine land rush on all Chippewa reservations, and men are hurrying to the Duluth, St. Cloud and Crookston offices offering to file on certain parts of the sections described in the various townships. The Eastern Minnesota train from Cass Lake last night brought in several men who, it is said, intend to offer filings on such lands in the United States land office here. None of them, however, could be induced to talk on the subject last night."

"It was learned that S. F. Fullerton, executive agent of the state game and fish commission; Representative Al Ferris and J. P. Saunders of Brainerd, yesterday offered to file on three quarter sections of the Indian land described, at the Crookston office. The three claims are said to be worth not less than \$25,000."

"The officials of the land offices cannot accept filings, because they have no plats of the lands in the reservations, but they make a record of the application and this probably paves the way for some extended

is to be settled perhaps tomorrow with Land Commissioner Hermann and Judge Vandever assistant attorney general for the interior department, provided Secretary Hitchcock is willing."

Mr. Flinn made an interesting and comprehensive statement to Secretary Hitchcock regarding the situation in which Minnesota is placed as a result of the supreme court decision. There are 305,374 acres in sections 16 and 36 of the Minnesota Indian reservations just referred to and until the supreme court acted, it was supposed the state would be entitled to them. Indemnity has been reserved for 13,837 acres before the action of the court and there remain 291,538 acres yet to be provided for by indemnity selections.

There are in Minnesota today 3,964,686 acres of vacant government land of which 1,078,988 have not been surveyed. Nearly all of it is in the Duluth and Crookston districts. There are 940,000 acres of unsurveyed townships in the state and this is increased to 1,046,000 if the "north-west angle" is added. Adding also the acres surveyed, but not yet approved, the total reaches 1,960,000 acres. It is the desire of the state auditor's office to have a bill passed through congress this session providing for the immediate completion of the survey of public lands, which will enable the state at an early day to take its indemnity sections and recover from the ill effects of the supreme court decision.

If Secretary Hitchcock authorizes the indemnity selection as it is assumed he will do, and if congress will promptly authorize the completion of the surveys of public lands in the state, the effects of the supreme court decision will not be lasting or serious. Mr. Flinn will remain here several days, or until the matter has been carefully presented to all interested parties. The Minnesota delegation proposes to get behind the bill for the completion of the survey of lands and push it as rapidly as possible. It is believed that it can be passed.

LINNEMAN & CARLSON'S.

A STORY OF BROWNING.

The Poet Was Just as Well as Generous With His Servant.

On a certain day Browning met one of his servants whose joy it was to wait upon him carrying a rather heavy basket of grapes and other fruit on her arm.

"Oh, Giuseppina," he cried, "let me help you!" and seized the basket suddenly from her hand.

The woman, overwhelmed by such condescension, protested, "Troppo onore, signore."

"Nonsense!" said the poet. "You are always helping me. Won't you allow me for once to help you?"

Still the woman resisted, saying, "It is not for such as you, O signore."

This was more than he could bear.

"We are all made of the same clay, Giuseppina," and, gaining his point—for who could withstand his will?—he held one handle of the basket until they reached the palace door.

This same worthy woman is fond of relating a story of her master which illustrates another side of his character. He had paid her weekly account, and there remained 1 centesimo as change. The woman showed the little coin, saying shyly, "I cannot offer this trifle to the signore."

"Yes, my good Giuseppina," he said, taking it from her hand; "it is one thing to be just and another to be generous. You do right to return it to me."

"And not long after this," continues the woman, "he made me such a grand present!"—Century Magazine.

It Was a Monkey.

I was invited, along with other Europeans on the beach, to one of the biggest plays that have been seen in Oplo. At the feast all kinds of fish, fowl and soup, cooked after the native fashion, were served. Every one thoroughly enjoyed the feast until, near to the finish, the chaser (dessert) was brought in. This dish they called palm oil chop. While it was being served there rolled out of the vessel what to all appearance was a human skull. Suddenly all the Europeans turned pale, as though suffering from an acute attack of seasickness, and the symptoms they developed were identical, for that dinner would not stay down.

The chief, in alarm, inquired what had made his friends so ill. One of the sufferers, whose eyes protruded from their sockets, and afraid to trust himself to speak, placed his handkerchief to his mouth and jerked his thumb in the direction of the skull.

The chief grasped the situation and with unaffected concern tried to comfort his sick guests by saying: "It be all right. He be no man. He be monkey!"—Chambers' Journal.

MUSIC AND DRAMA.

"THE MISSOURI GIRL"

"The Missouri Girl," which comes to Brainerd Opera House, Thursday May 29, produced more genuine, hearty laughter than any comedy yet written. In connection with a strong and interesting plot, it contains the most exuberantly funny situations ever conceived. The company presenting the play is fully capable of extracting this fun and dealing it out to the public in a most satisfactory manner.

Knocked Into a Cocked Hat.

The expression "knocked into a cocked hat" is familiar to every one, but perhaps its origin is not so generally known. Cocked hat was a variety of the game of bowls in which only three pins were used, set up at the angles of a triangle. When, in bowling tenpins, all were knocked down except the three at the corners, the set was said to be "knocked into a cocked hat," whence the popular expression for depriving anything of its main body, character or purpose.

Chinese Repartee.

An English sailor was watching a Chinaman who was placing a dish of rice by a grave. "When do you expect your friend to come out and eat that?" the sailor asked. "Same time as your friend come out to smell flowers your fellow put," retorted Li.—Singapore Free Press.

Foresight.

Sweet Girl—I am loved by two men, and I cannot make up my mind which to marry. What would you advise? Old Lady—Get both to insure their lives in your favor and then wait until one of them dies. That will insure the constancy of the other.—New York Weekly.

W. C. T. U. Will Meet in Geneva.

Boston, May 27.—The official call for the sixth biennial convention of the World's Woman's Christian Temperance Union, which has just been issued, designates Geneva as the place and June, 1903, as the time for the meetings. The city of Geneva has been chosen as being the most convenient European center as well as the most English speaking city on the European continent.

litigation. The assumption of the land seekers is that if the state does not own the land, it is open to entry. The decision, according to one of the men who has looked into it, leads to the conclusion that the land belongs to the government and not the reservations.

"A dispatch from St. Cloud last night says: 'Some 20 quarter sections were filed upon, but the land office officials refused to accept the filings, pending instructions from Washington.'"

"Judge McClenahan, of Brainerd, will tomorrow file upon section 16, upon which squatters have formed a townsite at the village of Cass Lake. This filing will be under the townsite laws. Heber Hartley, of Cass Lake village, has filed upon that portion of the island in Cass Lake, which comes within section 16."

"An exciting race occurred between the rival claimants for favored sections. Some days ago filings were offered on lands in the Mille Lacs reservation and State Auditor Dunn wrote an emphatic letter, declaring that the state had sold the sections to settlers and would defend their title through all the courts."

"He takes the position that the Red Lake decision does not affect the other reservations. Long drawn out litigation is in sight."

Game Warden Fullerton, Deputy Saunders and others have returned from Cass Lake. They feel that they are on the right track and will fight for their rights.

The Lands in Question.

George Flinn, land clerk in the state auditor's office, accompanied by Senator Clapp and Representative Stevens, called on Secretary Hitchcock, at Washington, to confer regarding the indemnity lands which the state wants in lieu of sections 16 and 36 on the Indian reservations of which it was deprived by the recent decision of the supreme court. It is within the discretionary power of the secretary to permit the state to make these selections and the matter

A DECISION IS HANDLED DOWN

By Judge McClenahan in Case of
the Town of St. Mathias
Against County.

BILLS ARE MOSTLY ALLOWED.

Those who Can Afford it Must
Pay the Expense in Cases
of Epidemic.

Judge McClenahan has handed down his decision in the case of the Town of St. Mathias vs. Crow Wing county and it will be read with considerable interest.

It seems that the township officers incurred some expense in taking care of several cases of smallpox about a year ago now, and a statement of the expense was made out and handed to the county auditor. At the next meeting of the county commissioners it was decided not to allow the bill. This was one of the first of the kind that was ever sent in to the county and it has been made a sort of test case all the way through, and there is now something like \$4000 against the county which has been contingent on the decision of the judge in this case.

Under the law the board of township officers comprises the board of health and in cases of epidemic they are supposed to serve in the capacities of the regular health officers. These men naturally in some instances spend considerable time and labor in looking after the cases and in this particular case a bill was sent in for the time put in by a member of the board.

Judge McClenahan decided that the town was entitled to \$118. The town asked judgment in the sum of \$160.89. In reducing this amount the court has decided another important phase of this question. He held that under the law a person who is able to pay the necessary bill of expense is to be charged up with the cost; that the law wherein the county becomes liable is only applicable to persons not able to pay costs of treatment etc. All the other cases where town officers have sent in bills will therefore be settled on this basis.

A STORY OF BROWNING.

The Poet Was Just as Well as Generous With His Servant.

On a certain day Browning met one of his servants whose joy it was to wait upon him carrying a rather heavy basket of grapes and other fruit on her arm.

"Oh, Giuseppina," he cried, "let me help you!" and seized the basket suddenly from her hand.

The woman, overwhelmed by such condescension, protested, "Troppo onore, signore."

"Nonsense!" said the poet. "You are always helping me. Won't you allow me for once to help you?"

Still the woman resisted, saying, "It is not for such as you, O signore."

This was more than he could bear.

"We are all made of the same clay, Giuseppina," and, gaining his point—for who could withstand his will?—he held one handle of the basket until they reached the palace door.

This same worthy woman is fond of relating a story of her master which illustrates another side of his character. He had paid her weekly account, and there remained 1 centesimo as change. The woman showed the little coin, saying shyly, "I cannot offer this trifle to the signore."

"Yes, my good Giuseppina," he said, taking it from her hand; "it is one thing to be just and another to be generous. You do right to return it to me." "And not long after this," continues the woman, "he made me such a grand present!"—Century Magazine.

It Was a Monkey.

I was invited, along with other Europeans on the bench, to one of the biggest plays that have been seen in Opéra. At the feast all kinds of fish, fowl and soup, cooked after the native fashion, were served. Every one thoroughly enjoyed the feast until, near to the finish, the chaser (dessert) was brought in. This dish they called palm oil chop. While it was being served there rolled out of the vessel what to all appearance was a human skull. Suddenly all the Europeans turned pale, as though suffering from an acute attack of seasickness, and the symptoms they developed were identical, for that dinner would not stay down.

The chief, in alarm, inquired what had made his friends so ill. One of the sufferers, whose eyes protruded from their sockets, and afraid to trust himself to speak, placed his handkerchief to his mouth and jerked his thumb in the direction of the skull.

The chief grasped the situation and with unaffected concern tried to comfort his sick guests by saying: "It be all right. He be no man. He be monkey!"—Chambers' Journal.

HITCH IN NEGOTIATIONS

RUMOR REACHES LONDON THAT

SOUTH AFRICAN WAR MAY

CONTINUE.

OFFICIALS ARE RETICENT

That the British Government Expects

a Speedy Conclusion of Peace is

Evidenced by the Postponement of

the Budget in the Committee Stage

Until Friday—Little Information

From Pretoria Passes the Censor.

London, May 27.—Just before parliament rose at midnight, a rumor reached the lobbies that a hitch had occurred in the peace negotiations. Nothing official concerning this rumor could be ascertained, but the dispatch of the Associated Press from Pretoria in which it was said that the prevalence throughout South Africa of the optimistic feeling in regard to the peace negotiations was hardly based upon solid facts, may be regarded as an indication that such a hitch has occurred.

Little information from Pretoria has been able recently to pass the censor there.

That the government fully anticipated a speedy conclusion of peace is believed to be shown by the postponement until Friday or later of the budget bill in the committee stage with the view, as frankly admitted on the government side of the house, of enabling the budget to be recast in the event that peace is secured.

OPTIMISTIC FEELING.

Its Prevalence in South Africa Hardly

Based Upon Solid Facts.

Pretoria, May 27.—The prevalence throughout South Africa of the optimistic feeling in regard to the peace negotiations is hardly based upon solid facts. The protraction of the conference at Vreningen is not necessarily a hopeful sign.

The delegates to the conference, although they have abandoned their hopes of securing independence, still have many points of difference with the government, while an obstinate minority continues to regard the resumption of hostilities as the best outcome of the present situation, and at any moment these points of difference may be accentuated into a refusal to continue the negotiations.

It is most unlikely that those who are in favor of peace will throw up the sponge so long as a decent minority is desirous of continuing the struggle and all these dissonant elements must be taken into account before it is possible to give any sort of prediction as to the issue of the present negotiations.

INVASION OF VENEZUELA.

Four Thousand Rebels Will Cross the

Border From Colombia.

Willemstad, Island of Curacao, May 27.—A reliable report has reached here that a new invasion of the Venezuelan frontier by Venezuelan revolutionists is contemplated and will occur shortly. The Venezuelan revolutionists who contemplate this invasion are said to have been assisted by the government of Colombia with men and arms. Four thousand men who will invade Venezuelan territory are said to have assembled at Cucuta, which is situated in Colombia but close to the western frontier of Venezuela.

President Castro of Venezuela has decried the threatened bombardment of Carapano, in the state of Bermudez, and which is now occupied by the Venezuelan revolutionists.

DROUTH IN AUSTRALIA.

Losses in Stock Amount to About Fif-

teen Million Pounds.

London, May 27.—Cabling from Sydney, N. S. W., the correspondent of The Daily Mail gives an account of the terrible drouth from which, as a climax to seven dry years, Australia is now suffering. The correspondent says that the losses in stock in Australia since 1899 amount to £15,000,000 (\$75,000,000). Unemployed men are drifting into the cities by the thousands, and there the state governments are providing them with relief. The only districts that have escaped the drouth are the Northern rivers district of New South Wales and parts of the Riverina district.

MORO TREACHERY.

Native Carrying a Flag of Truce Cuts

Off an American's Arm.

Manila, May 27.—While Second Lieutenant Robert C. Humber of the Tenth Infantry and Sergeant Warkling of the same regiment were walking about six miles from Camp Vickers, in Mindanao, they perceived a single Moro carrying a flag of truce. When the native had approached close to the Americans he suddenly drew his creese and slashed Sergeant Warkling, cutting his arm completely off. Lieutenant Humber attempted to shoot the Moro, but his revolver missed fire and the native escaped in the tall grass.

British Refuse the Request.

The Hague, May 27.—It is said in Boer circles here that the peace proposals made to the conference at Vreningen, Transvaal, include the condition that the Boers in the field be allowed to consult with the Boer delegates in Europe before definite settlement is reached. It is declared also, upon the same authority, that the British government refused, May 23, to accede to this request.

Trusted Employee and Money Missing.

Denver, May 27.—The safe in the treasury department of the Colorado Telephone company has been opened and looted of \$1,200. The robbery evidently was committed by someone who knew the combination. Robert F. Huntington, a trusted employee in the office, is missing and a search is being made for him.

DULUTH TRANSFER RAILROAD.

Northern Pacific Acquires the Prop-

erty for \$550,000.

Duluth, May 27.—The Duluth Transfer Railroad company has been sold to the Northern Pacific road for \$550,000. The transaction was authorized at meetings of the board of directors and of the stockholders held at Duluth during the afternoon, General Counsel Bunn of the Northern Pacific road representing that corporation. The sale is one of the most interesting pieces of railroad news that has developed at the head of the lake for many years. The Duluth Transfer is considered a most important piece of terminal property and will add much to the Northern Pacific's already complete system in this city. The Northern Pacific company had \$22,000,000 in terminals on both sides of Superior bay before it acquired those of the old St. Paul and Duluth. The Transfer company owned 22 miles of track and the west side of the big dock at the foot of Seventh avenue west. The Northern Pacific now owns the entire dock. The Northern Transfer company has a lease of the west side of the dock which has just been sold with the Transfer railroad to the Northern Pacific and has used it for steamship purposes for the past eight or nine years. The Duluth Transfer railroad line extends through the West End and West Duluth to Ironton, where it connects with the old Duluth and Winnipeg line, now the Eastern Minnesota. It makes connection with many important points for the delivery of cars in and out. Albert Harrington of Minneapolis, O. H. Simonds of Duluth and the late John Willard of Mankato were among the leading promoters of the company. The purpose of the railway was to serve the St. Louis bay front industries and the ultimate intention was to extend to the Superior side. The company secured a charter for a bridge across the St. Louis river with that object in view.

RESULTS IN A DROWNING.

Feeling Between Freshmen and Soph-

omores Ends in a Tragedy.

Plattsburg, N. Y., May 27.—The feeling which has existed between the freshmen and sophomore classes of the University of Vermont, culminated here in the drowning of Nelson Pease Bond of Burlington, Vt., treasurer of the freshmen class. The freshman had arranged to have their annual banquet at the Cumberland house, and Bond, with four other freshmen, came over on the morning boat from Burlington to make the final arrangements. Five sophomores sailed to Port Kent on the sloop Alert and took the train there for Plattsburg, arriving in the afternoon. The main body of freshmen, 40 in number, arrived on the steamer Vermont at 7 in the evening, after a hard fight on the Burlington dock.

Bond left his companions at a o'clock in the afternoon for a stroll, and it is alleged, was set upon by two sophomores presumably for the purpose of kidnapping him and keeping him from the banquet. He fled from his pursuers until he reached Wilcox's dock, an out of the way place on the north lake front. The pursuers claim he jumped into the lake in an effort to escape by swimming. They endeavored to rescue him by a boat, but could find no oars and he sank before they could reach him.

Coroner McMasters will hold an in-

quest and the matter will be probed to the bottom. Bond was 19 years of age.

A TRIPLE TRAGEDY.

Kansas City Man Kills His Sweetheart,

Wounds His Rival and Himself.

Kansas City, Mo., May 27.—Frank Robinson, 20 years of age, shot and killed his sweetheart, Gertrude Rawlins, aged 16 years, and shot and fatally injured his rival, Albert H. Ferguson, aged 19 years, and shot and fatally wounded himself in an apartment house in this city. Shortly before the tragedy Robinson wrote a note to his mother in which he said that Ferguson had supplanted him in the affections of the girl he loved and that he proposed to kill them both and then kill himself. He proceeded to the room where Ferguson and the girl were and upon being admitted drew his revolver and opened fire on the couple. The girl was shot near the heart. She rushed screaming into the street, where she fell dead. Ferguson was shot in the abdomen. Robinson shot himself in the left breast and his death is momentarily expected.

Robinson is from Nevada, Ia., where

his mother still lives.

WAS UNREASONABLY JEALOUS.

G. T. Bruns Fatally Wounds His Wife

and Suicides at Brooklyn.

New York, May 27.—George T. Bruns, an examiner of accounts for the Equitable Life Assurance company, shot his wife and killed himself at their home in Brooklyn. Edna Dashiell, sister of Mrs. Bruns, who had spent the evening with the couple, says that Bruns was unreasonably jealous and charged his wife with extravagance and receiving attention from other men. Mrs. Bruns denied the charges and the quarrel growing fiercer, Miss Dashiell left the room. Immediately after four revolver shots were fired, Bruns sending three bullets into his wife's side and a fourth into his own head. He died instantly. Mrs. Bruns will probably die. They had been married two years.

Helena Attorney Is Disbarred.

Helena, Mon., May 27.—The supreme court of the state has suspended E. D. Weed, formerly United States district attorney of Montana, from practicing law in Montana for two years. The court finds that the attorney was guilty of fraud in deeding a piece of real estate after having entered into a contract to sell the same property to another and in accepting money from the latter after having disposed of his title.

Two Iowans Sentenced for Murder.

Clarinda, Ia., May 27.—Edward Dennis and Wesley Irwin were sentenced to the penitentiary at Fort Madison for 18 and 12 years, respectively. They were recently convicted of the murder at Shenandoah, Ia., last December of Oscar Miller. Judge Thorne passed sentence.

HAVE FOUND A "JOKER."

Makers of Oleomargarine Believe They

Can Evade the Law.

Washington, May 27.—Makers of oleomargarine believe that they have a "joker" in the law recently passed which will let them out of the 10-cent-a-pound tax on the product. The alleged discovery was brought to light in a hearing before the treasury department where regulations are being drawn for enforcement of the law. The manufacturers intend to carry their point to the courts in case the treasury officials do not admit the contention.

The dispute turns on the word "artificial," as applied to coloring of butter. The oleo people claim the right under the law to mix real butter with their product, taking for the purpose butter which naturally has a high color and thus imparting to their oleo a color which, while rather light, will still make it look like butter and be salable. This coloring, they say, will not be artificial coloring matter, and the mixed product, they say, should be treated simply as renovated butter, and be subject only to the tax of one-fourth of a cent a pound. The department has not yet ruled on the contention.

Porto Rican's Sentence Commuted.

San Juan, Porto Rico, May 27.—Governor Hunt has commuted to life imprisonment the sentence of death imposed upon Ramon Troche, who, with four companions, was sentenced to be garroted for crimes committed in 1898. This commutation was granted on account of the youth of Troche, who was only 19 when the crimes were committed. The other four men will be garroted at Ponce in about 40 days time. The executions will not be public.

Belgian Election Returns.

Brussels, May 27.—The final election returns show that the new chamber of representatives will be composed of 96 Catholics, 34 Liberals and 2 Christian Democrats. The government thus has a majority of 26 as compared to a majority of 20 before the elections. The new Belgian senate will contain 62 Catholics, 41 Liberals and 3 Socialists, thus increasing the government's majority in this body by one.

Promote and Retire Brooke.

Washington May 27.—Senator Quay has introduced a bill providing for the promotion of Major General Brooke, the senior major general of the army, to the rank of lieutenant general and for the general's retirement with that rank.

TELEGRAPHIC BREVITIES.

Jean Joseph Benjamin-Constant, the painter, is dead. He was born in Paris in 1845.

Henri Greville (Alice Marie Celeste Durand), the French authoress, is dead at Paris.

Forty-six Boers with their wagons and cattle have surrendered at Balmoral, Transvaal.

General Leonard Wood has reached Norfolk from Havana on the government yacht Kanawha.

Harry New won the Latonia derby at Cincinnati in an easy fashion before a crowd of 10,000 people.

The Montreal city council has formally accepted the offer of Andrew Carnegie of \$150,000 for a civic library, the city to contribute \$15,000 annually to its maintenance.

Fire practically wiped out the business portion of Ravenna, Mich. A brisk wind spread the flames and before they were checked 15 store buildings and contents were consumed.

could be ascertained, but the dispatch
of the Associated Press from Pretoria
in which it was said that the preva-
lence throughout South Africa of the
optimistic feeling in regard to the
peace negotiations was hardly based
upon solid facts, may be regarded as
an indication that such a hitch has oc-
curred.

Little information from Pretoria has
been able recently to pass the censor
there.
That the government fully antici-
pated a speedy conclusion of peace is
believed to be shown by the postpone-
ment until Friday or later of the
budget bill in the committee stage
with the view, as frankly admitted on
the government side of the house, of
enabling the budget to be recast in
the event that peace is secured.

OPTIMISTIC FEELING

Its Prevalence in South Africa Hardly
Based Upon Solid Facts.

Pretoria, May 27.—The prevalence
throughout South Africa of the opti-
mistic feeling in regard to the peace
negotiations is hardly based upon solid
facts. The protraction of the confer-
ence at Vereeniging is not necessarily
a hopeful sign.
The delegates to the conference, al-
though they have abandoned their
hopes of securing independence, still
have many points of difference with
the government, while an obstinate
minority continues to regard the res-
umption of hostilities as the best out-
come of the present situation, and at
any moment these points of difference
may be accentuated into a refusal to
continue the negotiations.

It is most unlikely that those who are
in favor of peace will throw up the
sponge so long as a decent minority is
desirous of continuing the struggle
and all these dissident elements must
be taken into account before it is pos-
sible to give any sort of prediction as
to the issue of the present negotia-
tions.

INVASION OF VENEZUELA.

Four Thousand Rebels Will Cross the
Border From Colombia.

Willemstad, Island of Curacao, May
27.—A reliable report has reached here
that a new invasion of the Venezuelan
frontier by Venezuelan revolutionists
is contemplated and will occur shortly.
The Venezuelan revolutionists who
contemplate this invasion are said to have
been assisted by the government of
Colombia with men and arms. Four thousand
men who will invade Venezuelan
territory are said to have assembled
at Cucuta, which is situated in Colom-
bia but close to the western frontier
of Venezuela.

President Castro of Venezuela has
deferred the threatened bombardment
of Carupano, in the state of Bermudez,
and which is now occupied by the Ven-
ezuelan revolutionists.

DROUTH IN AUSTRALIA.

Losses in Stock Amount to About Fif-
teen Million Pounds.

London, May 27.—Cabling from Syd-
ney, N. S. W., the correspondent of
The Daily Mail gives an account of the
terrible drouth from which, as a cli-
max to seven dry years, Australia is
now suffering. The correspondent
says that the losses in stock in Aus-
tralia since 1899 amount to £15,000,000
(\$75,000,000). Unemployed men are
drifting into the cities by the thou-
sands, and there the state govern-
ments are providing them with relief.
The only districts that have escaped
the drouth are the Northern rivers dis-
trict of new South Wales and parts of
the Riverina district.

MORO TREACHERY.

Native Carrying a Flag of Truce Cuts
Off an American's Arm.

Manila, May 27.—While Second Lieut-
enant Robert C. Humber of the Tenth
infantry and Sergeant Warking of the
same regiment were walking about six
miles from Camp Vickers, in Mindanao,
they perceived a single Moro carry-
ing a flag of truce. When the na-
tive had approached close to the Ameri-
cans he suddenly drew his cut-throat
and slashed Sergeant Warking, cutting his
arm completely off. Lieutenant Humber
attempted to shoot the Moro, but his
revolver missed fire and the native
escaped in the tall grass.

British Refuse the Request.

The Hague, May 27.—It is said in
Boer circles here that the peace pro-
posals made to the conference at
Vereeniging, Transvaal, include the
condition that the Boers in the field be
allowed to consult with the Boer dele-
gates in Europe before definite settle-
ment is reached. It is declared also
upon the same authority, that the British
government refused, May 23, to ac-
cede to this request.

Trusted Employee and Money Missing.

Denver, May 27.—The safe in the
treasury department of the Colorado
Telephone company has been opened
and looted of \$1,200. The robbery evi-
dently was committed by someone
who knew the combination. Robert
L. Huntington, a trusted employee in
the office, is missing and a search is
being made for him.

DULUTH TRANSFER RAILROAD.

Northern Pacific Acquires the Prop-
erty for \$550,000.

Duluth, May 27.—The Duluth Trans-
fer Railroad company has been sold to
the Northern Pacific road for \$550,-
000. The transaction was authorized
at meetings of the board of directors
and of the stockholders held at Duluth
during the afternoon. General Counsel
Bunn of the Northern Pacific road re-
presenting that corporation. The sale
is one of the most interesting pieces
of railroad news that has developed at
the head of the lake for many years.
The Duluth Transfer is considered
a most important piece of terminal
property and will add much to the
Northern Pacific's already complete
system in this city. The Northern Pa-
cific company had \$22,000,000 in ter-
minals on both sides of Superior bay
before it acquired those of the old St.
Paul and Duluth. The Transfer com-
pany owned 22 miles of track and the
west side of the big dock at the foot
of Seventh avenue west. The North-
ern Pacific now owns the entire dock.
The Northern Steamship company has
a lease of the west side of the dock
which has just been sold of the
Transfer railroad to the Northern Pa-
cific and has used it for steamship pur-
poses for the past eight or nine years.
The Duluth Transfer railroad line
extends through the West End and
West Duluth to Ironton, where it con-
nects with the old Duluth and Winni-
peg line, now the Eastern Minnesota.
It makes connection with many im-
portant points for the delivery of cars in
and out. Albert Harrington of Minne-
apolis, O. H. Simonds of Duluth and
the late John Willard of Mankato were
among the leading promoters of the
company. The purpose of the rail-
way was to serve the St. Louis bay
front industries and the ultimate in-
tention was to extend to the Superior
side. The company secured a charter
for a bridge across the St. Louis river
with that object in view.

RESULTS IN A DROWNING.

Feeling Between Freshmen and Sopho-
mores Ends in a Tragedy.

Plattsburg, N. Y., May 27.—The feel-
ing which has existed between the
freshmen and sophomore classes of the
University of Vermont, culminated
here in the drowning of Nelson Pease
Bond of Burlington, Vt., treasurer of
the freshman class.
The freshman had arranged to have
their annual banquet at the Cumber-
land house, and Bond, with four other
freshmen, came over on the morning
boat from Burlington to make the final
arrangements. Five sophomores sailed
to Port Kent on the sloop Alert and
took the train there for Plattsburg, ar-
riving in the afternoon. The main
body of freshmen, 40 in number, ar-
rived on the steamer Vermont at 7 in
the evening, after a hard fight on the
Burlington dock.
Bond left his companions at 5
o'clock in the afternoon for a stroll,
and, it is alleged, was set upon by two
sophomores presumably for the pur-
pose of kidnapping him and keeping
him from the banquet. He fled from
his pursuers until he reached Wilcox's
dock, an out of the way place on the
north lake front. The pursuers claim
he jumped into the lake in an effort
to escape by swimming. They en-
deavored to rescue him by a boat, but
could find no oars and he sank before
they could reach him.
Coroner McMaster will hold an in-
quest and the matter will be probed to
the bottom. Bond was 19 years of age.

A TRIPLE TRAGEDY.

Kansas City Man Kills His Sweetheart,
Wounds His Rival and Himself.

Kansas City, Mo., May 27.—Frank
Robinson, 20 years of age, shot and
killed his sweetheart, Gertrude Rawlins,
aged 16 years, and shot and fatally in-
jured his rival, Albert H. Ferguson,
aged 19 years, and shot and fatally
wounded himself in an apartment house
in this city. Shortly before the tragedy
Robinson wrote a note to his mother
in which he said that Ferguson had
supplanted him in the affections of the
girl he loved and that he proposed to
kill them both and then kill himself.
He proceeded to the room where Fergu-
son and the girl were and upon being
admitted drew his revolver and opened
fire on the couple. The girl was shot
near the heart. She rushed screaming
into the street, where she fell dead.
Ferguson was shot in the abdomen.
Robinson shot himself in the left
breast and his death is momentarily
expected.

Robinson is from Nevada, Ia., where
his mother still lives.

WAS UNREASONABLY JEALOUS.

G. T. Bruns Fatally Wounds His Wife
and Suicides at Brooklyn.

New York, May 27.—George T. Bruns,
an examiner of accounts for the
Equitable Life Assurance com-
pany, shot his wife and killed himself
at their home in Brooklyn. Edna
Dashiell, sister of Mrs. Bruns, who had
spent the evening with the couple,
says that Bruns was unreasonably jeal-
ous and charged his wife with extra-
vagance and receiving attention from
other men. Mrs. Bruns denied the
charges and the quarrel grew fiercer.
Miss Dashiell left the room. Im-
mediately after four revolver shots
were fired. Bruns sending three bul-
lets into his wife's side and a fourth
into his own head. He died instantly.
Mrs. Bruns will probably die. They
had been married two years.

Helena Attorney Is Disbarred.

Helena, Mon., May 27.—The su-
preme court of the state has suspended
E. D. Weed, formerly United States
district attorney of Montana, from
practicing law in Montana for two
years. The court finds that the attor-
ney was guilty of fraud in deeding a
piece of real estate after having en-
tered into a contract to sell the same
property to another and in accepting
money from the latter after having dis-
posed of his title.

Two Iowans Sentenced for Murder.

Clarinda, Ia., May 27.—Edward Den-
nis and Wesley Irwin were sentenced
to the penitentiary at Fort Madison
for 15 and 12 years, respectively. They
were recently convicted of the
murder at Shenandoah, Ia., last De-
cember of Oscar Miller. Judge Thorne
passed sentence.

HAVE FOUND A "JOKER."

Makers of Oleomargarine Believe They
Can Evade the Law.

Washington, May 27.—Makers of
oleomargarine believe that they have
a "joker" in the law recently passed
which will let them out of the 10-
cents-a-pound tax on the product. The
alleged discovery was brought to light
in a hearing before the treasury de-
partment where regulations are being
drawn for enforcement of the law.
The manufacturers intend to carry
their point to the courts in case the
treasury officials do not admit the con-
tentment.
The dispute turns on the word "ar-
tificial," as applied to coloring of but-
ter. The oleo people claim the
right under the law to mix real butter
with their product, taking for the pur-
pose butter which naturally has a high
color and thus imparting to their oleo
a color which, while rather light, will
still make it look like butter and be
salable. This coloring, they contend,
will not be artificial coloring matter,
and the mixed product, they say,
should be treated simply as renovated
butter, and be subject only to the tax
of one-fourth of a cent a pound.
The department has not yet ruled
on the contention.

Porto Rican's Sentence Commuted.

San Juan, Porto Rico, May 27.—Gov-
ernor Hunt has commuted to life im-
prisonment the sentence of death im-
posed upon Ramon Troche, who, with
four companions, was sentenced to be
garroted for crimes committed in 1898.
This commutation was granted on ac-
count of the youth of Troche, who was
only 19 when the crimes were commit-
ted. The other four men will be gar-
roted at Ponce in about 40 days time.
The executions will not be public.

Belgian Election Returns.

Brussels, May 27.—The final elec-
tion returns show that the new cham-
ber of representatives will be com-
posed of 96 Catholics, 34 Liberals and
2 Christian Democrats. The govern-
ment thus has a majority of 26 as com-
pared to a majority of 20 before the
elections. The new Belgian senate will
contain 62 Catholics, 41 Liberals and 6
Socialists, thus increasing the govern-
ment's majority in this body by one.

Promote and Retire Brooke.

Washington May 27.—Senator Quay
has introduced a bill providing for the
promotion of Major General Brooke,
the senior major general of the army,
to the rank of lieutenant general and
for the general's retirement with that
rank.

TELEGRAPHIC BREVITIES.

Jean Joseph Benjamin-Constant, the
painter, is dead. He was born in Paris
in 1845.

Henri Greville (Alicie Marie Celeste
Durand), the French authoress, is
dead at Paris.

Forty-six Boers with their wagons
and cattle have surrendered at Bal-
moral, Transvaal.

General Leonard Wood has reached
Norfolk from Havana on the govern-
ment yacht Kanawha.

Harry New won the Latonia derby
at Cincinnati in an easy fashion before
a crowd of 10,000 people.

The Montreal city council has for-
mally accepted the offer of Andrew
Carnegie of \$150,000 for a civic library,
the city to contribute \$15,000 annually
to its maintenance.

Fire practically wiped out the busi-
ness portion of Ravenna, Mich. A brisk
wind spread the flames and before
they were checked 15 store buildings
and contents were consumed.
